

Middleware

```
classDiagram
    class Middleware {
    }
    class Authenticate {
        # redirectTo(Request $request)
    }
    Authenticate <|-- Middleware
```

The diagram consists of two class boxes. The top box, labeled 'Middleware', is white with a black border and is divided into three horizontal sections. The bottom box, labeled 'Authenticate', is gray with a black border and is also divided into three horizontal sections. A blue arrow with an open triangular head points from the top of the 'Authenticate' box to the bottom of the 'Middleware' box, indicating that 'Authenticate' is a specialization of 'Middleware'. The text '# redirectTo(Request \$request)' is located in the bottom section of the 'Authenticate' box.

Authenticate

redirectTo(Request
\$request)
