

HttpKernel

```
classDiagram
    class HttpKernel
    class Kernel {
        # $middleware
        # $middlewareGroups
        # $middlewareAliases
    }
    HttpKernel --|> Kernel
```

The diagram illustrates a class hierarchy. At the top is the 'HttpKernel' class, represented by a white box with a black border and three horizontal compartments. The top compartment contains the text 'HttpKernel', while the other two are empty. Below it is the 'Kernel' class, represented by a gray box with a black border and four horizontal compartments. The top compartment contains the text 'Kernel'. The second compartment contains the text '# \$middleware', the third contains '# \$middlewareGroups', and the fourth contains '# \$middlewareAliases'. The bottom compartment is empty. A blue arrow with a triangular head points from the top of the 'Kernel' box to the bottom of the 'HttpKernel' box, indicating inheritance.

Kernel

\$middleware

\$middlewareGroups

\$middlewareAliases
